

Number-Path Adventure

Use a large toy as your marker. Roll a die, count the dots and move that many spaces.

START before 1. Reaching or passing 10 finishes the journey. Take turns and invent a destination!

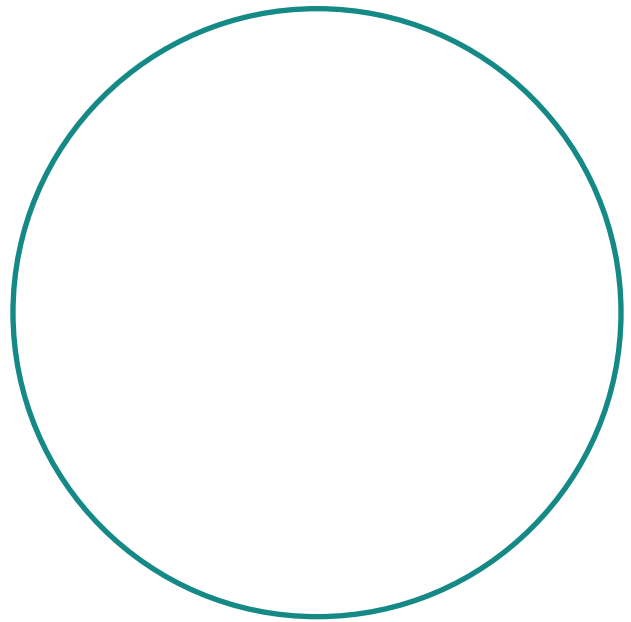

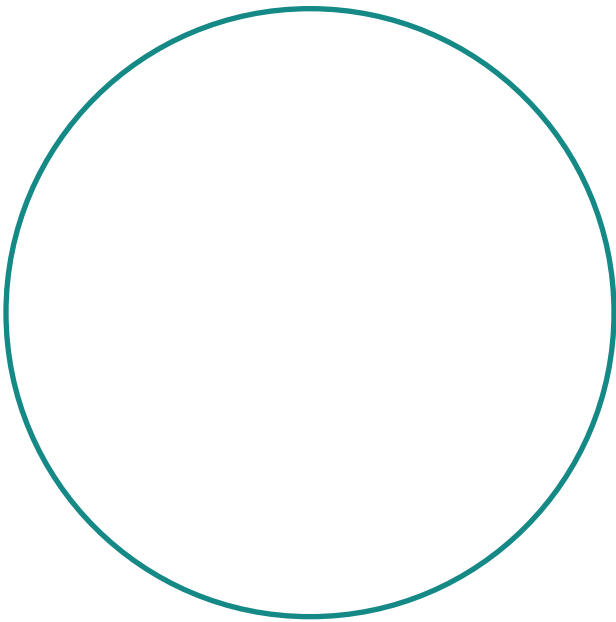

Our destination is:

More challenge: roll two dice and add the values before moving. Use adult-made number cards instead if dice are not appropriate.

Make a Number Pair

Choose 5 or 10. Put that many large blocks into the two circles. Find different ways to split the total.

OUR TOTAL: _____

Draw or write three pairs you discovered:

_____ + _____ = _____

_____ + _____ = _____

_____ + _____ = _____

Open a Pretend Toy Shop

Cut out the price cards with adult help. Use large paper payment cards or count pretend coins aloud.

PRICE

1 pretend coin
